

## **How to Register in AICTE portal using DSC Dongle and AICTESigner for AICTE AP 2021-22?**

Follow the steps:

1. Download the **AICTESigner** from AICTE website.
2. Install AICTESigner and Restart your system.
3. A pop-up can be seen after restarting the system as "**AICTESigner service started successfully**", Click **Ok**.
4. Open **Google Chrome** browser and minimize it.
5. Now insert DSC Dongle and auto run the DSC Dongle. Install the DSC Dongle software and run it. Login to the DSC Dongle with your PIN.
6. Maximize Google Chrome and go to settings of the browser.
7. In the **setting** search "**Manage Certificate**" in the search tab.
8. Click **Security**---> scroll down and Click **Manage Certificate**.
9. Under **Personal** tab if you can find the **certificate name**, you can proceed further else repeat the steps once again.
10. Now login to AICTE web portal.
11. Click on **DSC Utility**. You can see a pop up message showing "**Connection Successful**". If not then reload the page.
12. Now click on **+** button and enter your details first, then click **YES** to registration.  
NOTE: Check twice before clicking YES to registration.
13. Click **Save button** then Click **Register** button.
14. Wait for some time, AICTESigner take few minutes to synchronize with the page.
15. In the AICTESigner Menu you can find the certificate. Click on the certificate and Click the **sign** button. Use your **PIN** to Sign the certificate.
16. Now Click **Register** once again.
17. You can see in the registration status, as "**Success**". If not then reload the page once again.
18. In case if there is some unwanted registration done, you can find a button "**Remove**", click on the button to remove the unwanted registration.
19. Now, go to home and click **Approval Process**.
20. You can find that all the Tabs are now open under **Apply/View application** to proceed further.

**NOTE: For smooth performance of all the above steps, a fast processor system with high speed internet service is required. Before running the AICTESigner, make sure that no other program is running in the background including antivirus or other Start-up Software.**
